

## **PRESS INFORMATION**

**3<sup>rd</sup> June 2009**

### **Reflex partner with experts to present Unified Communications Event**

**Reflex Limited has partnered with leading video conferencing experts Polycom for the latest in their programme of technology events aimed at all end users of audio visual equipment**

The Unified Communications Live Event will take place on Thursday 2<sup>nd</sup> July and will allow visitors to experience first hand Polycom's voice and visual collaboration products, which include videoconferencing and voice conferencing, as well as data and web communication

The day will not only look at the technologies and products, but will look at the management issues around achieving truly unified communications and the business benefits such an approach can achieve.

The venue for the event is Polycom's offices in Slough and the day is split into two sessions, one for end users of the technology and one for audio visual consultants; sessions will include product demonstrations and case studies of Unified Communications in action.

10.00am – 12.30pm – End user programme  
2.00pm – 4.30pm – AV consultants programme

The event is free but booking is essential. To register, please visit [www.reflex.co.uk/events](http://www.reflex.co.uk/events) or contact Kristy Shepherd at Reflex on 0118 975 4960.
